

DELARME ROOFING

A CERTIFIED ASPHALT ROOFING SERVICE

**COMMITTED TO
EXCELLENCE
FOR OVER 20 YEARS**

WHO WE ARE

DeLarme Roofing has been in business for over 20 years, and we provide both residential and commercial roofing in western Pennsylvania. Our talented crew works above and beyond to meet the standard that your roof deserves and to make sure that you are happy with the quality of our work. It is our goal to build strong customer relationships and give you peace of mind as you make this valuable investment.

WHAT WE DO

Our company is pleased to offer you the protective benefits and versatility that asphalt shingles provide. We keep the job site very clean and use the highest quality materials to ensure that the job is done right the first time.

Customer Reviews

"When we needed our roof done, Matt was very thorough with meeting our needs in a timely manner."

-Jason C.

"Matt and his crew are fast, efficient, and get the job done."

-The Marshalls

"After DeLarme Roofing got done with our roof, Matt went over everything with us to make sure we were happy with the job."

-Austin G.

QUALITY WORK

Clean Job Sites

By using our Equiter, we can offer a low mess shingle tear off process. This innovative debris management equipment allows for a quicker job, with thorough clean up. We will leave your job site clean and undamaged.

Skilled Crew

Our company employs a crew of skilled workers who remove the shingles down to bare wood to ensure good sheathing and proper underlayment and flashing. You can feel confident that we will do the job correctly.

Superior Products

We use the highest quality products for each step of the roofing process. One example of this is our breathable waterproof barrier under the shingles. This critical layer provides long lasting protection for the roofing system.

“They did a very professional job at an affordable price. Worked quickly and finished our large job in a short time, which was great as we had special meetings scheduled coming up and didn't want a mess. Cleaned up after themselves. After they left, you wouldn't have known they were there except seeing the new roof.”
